Hermetic RF Connector Datasheet

For glass-to-metal sealed RF feedthrough and custom hermetic connector projects

Product types	Hermetic RF connectors, glass insulators, contacts and feedthroughs
Structure	Glass-to-metal seal, flange, bulkhead, pin/contact and housing options
Interfaces	SMA, custom coaxial, RF/power hybrid or drawing-based geometry
Materials	Kovar, stainless steel, alloy contacts and glass insulation structures
Applications	Sealed enclosures, vacuum, aerospace electronics and harsh environments
Review data	Drawing, sample, leakage requirement, materials, plating and quantity
