RF Cable Assembly Datasheet

For low-loss, semi-rigid, armored and phase-stable RF cable assemblies

Connector ends	SMA / N Type / BNC / TNC / SMP / 2.92 / 2.4 / 1.85 mm
Cable types	Flexible low-loss, semi-rigid, formed, armored or phase-stable cable
Length	Custom length with tolerance and labeling by order requirement
Electrical	Impedance, frequency, insertion loss, VSWR and phase stability target
Environment	Indoor, outdoor, waterproof, vibration, temperature or bend radius
Typical uses	VNA, calibration, antenna feeder, RF modules, radar and lab test
Quote data	Connector ends, cable type, length, quantity, environment and drawing
